LinkedIn GitHub Portfolio

Summary

Full Stack Developer specializing in the MERN stack with hands-on internship experience building scalable web applications. Skilled in developing RESTful APIs, implementing JWT-based authentication, and building responsive interfaces with React.js. Experienced in designing MongoDB schemas, optimizing backend systems, and developing full-stack enterprise solutions.

Technical Skills

Languages: JavaScript (ES6+) **Frontend:** React.js, HTML5, CSS3, Tailwind CSS **Backend:** Node.js, Express.js, REST APIs, JWT Authentication **Database:** MongoDB, Mongoose, Database Schema Design **Tools:** Git, GitHub, Postman, VS Code

Internship Experience

Full Stack Developer Intern – AS Global Soft Tech

Aug 2025 – Jan 2026

- Developed full-stack applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Designed RESTful APIs and implemented secure authentication using JSON Web Tokens (JWT).
- Built role-based dashboards for Admin, HR, Sales, and Operations modules.
- Developed reusable React components and responsive UI using Tailwind CSS.
- Optimized MongoDB queries and schema structures to improve backend performance.
- Collaborated with development teams using Git and GitHub for version control.

Projects

CRM vs ERP Enterprise Platform

- Built a full-stack enterprise platform integrating CRM and ERP functionalities for managing employees, customers, and business workflows.
- Developed backend APIs using Node.js and Express.js with modular architecture.
- Implemented JWT-based authentication and role-based access control.
- Designed MongoDB database schemas to manage operational data efficiently.
- Developed dynamic dashboards using React.js for business analytics and operational monitoring.

Developer Portfolio Website

- Built a responsive portfolio website using React.js to showcase projects and technical skills.
- Integrated GitHub repositories and live project demonstrations.
- Designed modern UI for better recruiter and hiring manager visibility.
